Take Control of Your Dictionary Maintenance with **IMO 2.0 Enhanced Terminology Platform (ETP)**

IMO 2.0 Enhanced Terminology Platform (ETP) is a solution that saves organizations time and resources by providing automatic content updates for the medical dictionaries within their EHRs. It also provides a dictionary refresh every quarter to ensure the most appropriate code maps are in place. The new CQM Dashboard gives visibility into code coverage gaps that could affect accurate reporting for MU/MACRA. With IMO 2.0 ETP, medical dictionaries can be maintained with greater efficiency, more speed, and less effort than ever before.

Future proof your dictionaries with **Long Term Terminology Management**

Increase mapping accuracy and efficiency with **Map (IT)**

Address CQM changes and potential reporting gaps easily on one screen with **CQM Dashboard**

Receive automatic updates with the **IMO 2.0 Server**

Access the same clinician friendly terminology outside of your EHR with **IMO Anywhere®**

How can IMO 2.0 ETP help my organization?

- Save time updating dictionaries with automatic updates
- Make mobile documentation fast, easy, and clinically accurate at the point of care
- Improve dictionary maintenance by eliminating searches with outdated concepts
- Proactively synchronize local dictionaries with clinical quality measure inputs

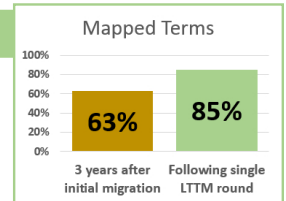

Join the 331 sites who have upgraded to IMO 2.0 ETP

Average IMO 2.0 client

Long Term Terminology Management (LTTM)

- Up to four MEDITECH dictionary refreshes each year
- New dictionary terms reviewed by IMO Terminology Analysts

40% increase in dictionaries which were less than 60% mapped initially

Map (IT)

“Map (IT) did everything that was required to save time and a headache.”

- User-friendly reconciliation tool gives an extended view to validate dictionary mappings
- Robust search capabilities for accurate and efficient mapping
- Advanced filter capabilities to increase mapping efficiency
- Works in alignment with the IMO CQM Dashboard

CQM Dashboard

“CQM Dashboard tells us what we’re missing and what we need to look at.”

The ultimate resource time saver

- Compares your dictionaries to latest CQM value sets to quickly determine your CQM value set coverage, gaps or omissions
- IMO provides all clinical CQM codes and terms based on CQM VSAC value sets
- IMO displays differentials with every CQM update
- Map (IT) work is integrated within the CQM Dashboard, allowing you to see your CQM code coverage as you work

CMS Measure ID	Measure Version	PQRS ID	Measure	Measure Short Name	IMO Value Sets Covered by Site	IMO Managed Value Sets	% IMO Value Set Site Coverage	Total Value Sets In Measure
64	6	316b	Preventive Care and Screening: Risk-Stratified Cholesterol -Fasting Low Density Lipoprotein (LDL-C)	Cholesterol_ScreeningB	19	22	86.36%	29
65	6	373	Hypertension: Improvement in Blood Pressure	Hypertension_BP_Improve	7	9	77.78%	13

1 of 3 information tabs (Measure Coverage, Value Sets, CQM Terms)

IMO 2.0 Appliance

“One thing I know I love is the auto updating on the server.”

- Install with local hardware or Virtual Machine
- Receive automatic content updates
- Access a user-friendly Control Panel for easy administration
- Install quickly with Setup Wizard
- Enable new product features such as Natural Language Processing

IMO Anywhere®

“We need more IMO Anywhere licenses.”

- Access IMO terminology on any device, anytime, anywhere
- Reference IMO terms, ICD-10 and SNOMED® codes with a standalone search
- Search ICD-10 descriptions and modifiers without logging into your EHR
